NUTRIPLANNER - WHERE HEALTHY MEETS DELICIOUS, EVERY MEAL, EVERY DAY

[www.NutriPlanner.com](http://www.NutriPlanner.com)

# INTRODUCTION

Nutriplanner is a healthy food ordering App that redefines how individuals approach wellness by connecting them to personalized dieticians, culinary excellence, nutritional expertise, and community-driven inspiration.

Additionally, the product aims to transform how individuals nourish their bodies by providing a seamless, personalized, and delightful healthy ordering experience.

# PROBLEM STATEMENT

Many individuals face challenges in understanding their nutritional needs and sustaining a balanced diet, especially given the prevalence of poor dietary choices in today's hectic lifestyles. This widespread struggle highlights the need for a solution that provides convenience for making healthier food choices. Existing generic diet plans often fall short in addressing individual health needs, preferences, and goals. Additionally, many people lack basic nutrition knowledge, hindering them from making informed decisions about their dietary habits. The core problem lies in the absence of a personalized, informative, and easily accessible solution that empowers individuals to navigate their unique health journeys successfully.

# DATA ANALYSIS

SUMMARY FOR ALL

# USER PERSONA

<b>NAME</b>	Mrs Margaret Thompson
<b>AGE</b>	70
<b>LOCATION</b>	Lagos
<b>OCCUPATION</b>	Retired
<b>MARITAL STATUS</b>	Married
